Subject: Application for the Junior Cyber Security Analyst Position

Dear Hiring Manager,

I am writing to apply for the Junior Cyber Security Analyst position at SecureNet Solutions. I am a BCA graduate of Indus University (2026, CGPA 8.65) and I am currently completing a Cyber Security course at TOPS Technologies. I am eager to begin my career in a security operations role.

My training covers networking fundamentals and security basics, and I hold three Cisco certifications: Introduction to Cyber Security, IT Customer Support, and Introduction to Modern AI. I am also preparing for the CompTIA Security+ certification. My earlier work in web development, including a booking platform built for a client and a patient-management app for a dental clinic, taught me to deliver to deadlines and to think carefully about how applications handle user data.

I am a disciplined and quick learner, and I would welcome the opportunity to contribute to your team while developing my skills. I have attached my CV and would be glad to discuss my application in an interview.

Thank you for your time and consideration.

Yours sincerely,

Mitesh Bhambhariya

Subject: Letter of Recommendation for Mitesh Bhambhariya

Dear Sir/Madam,

I am pleased to recommend Mitesh Bhambhariya, who has been a student in my Cyber Security class at TOPS Technologies since July 2026.

Mitesh consistently completes his assignments on time and with care. He grasps networking and security concepts quickly, asks thoughtful questions, and supports classmates who need help. His earlier experience in web development gives him a practical view of how applications are built and where they can fail.

He is punctual, respectful and dependable, and he accepts feedback well. I am confident he will be a valuable member of any team that hires him, and I recommend him without reservation.

Please contact me if you need any further information.

Yours sincerely,

Priya Shah
